FRONT END

GENERAL

- After idling on site, user should not get logged out of ask-mama.com
- MOBILE - Fix the enter text box outline - should not be touching the icon on left

LANDING PAGE

- UI clean up / messaging update (MAMA to revise)

HOME PAGE

- New user pop up modules
 - Yellow heart explanation (MAMA to revise)
 - View overall
 - Invite friends
- MOBILE: Default should land on LIST vs. map

JOIN WAITLIST

- Add North and South Vietnam

- Eventually you will never see the other flag
- Phone number should not be entered into admin panel if not verified
- Finalize sign up page – make email mandatory vs. optional

RECOMMENDATIONS

- Autofill restaurant search / auto lookup from yelp - add dropdown options for city/location
- Autofill FAVORITE DISH from BEST KNOWN FOR

INVITE FRIENDS

- Update invite friend with pop up msg/email + link with max limit of 3 people
 - How do we let people invite more than 3 if we want to later on

BACK END

DATABASE

- Upload CSV master restaurant list
 - realign the values for upload
 - Restaurants can have two ethnicities (flags)
 - Users can only have one ethnicity
- MAMA team has to fill-in restaurant data (categories, dishes photos)

ADMIN PANEL - RESTAURANTS

- Change selector to Restaurant name vs. Status
- Need to make Dishes / Best know for editable like categories
- TEST Info scrape. How do we make the information populate faster?

ADMIN PANEL - BEST KNOWN FOR

- Add table for best know for / auto fill favorite dish on recommendations page

ADMIN PANEL

- Optimize restaurant approval flow after testing

MVP 2 - OUTSIDE OF SCOPE - FEATURES

BACKEND

- *Build restaurant intake / portal - client application*
 - *Claim restaurant / collect information*
 - *Build relationships with restaurant*
- *Build out USER profiles*
- *Add list priority by Hearts, Vicinity, Price*
- *Tailor Rating system / values*
- *Added search filters / More detailed restaurant tags*
- *Content feed / blog*
- *Affiliate Ordering*
